Dear Sirs

Application by Eggborough Power Limited for an Order Granting Development Consent for the Eggborough CCGT Project

Deadline 3

We write further to the Issue Specific Hearing on Environmental Matters held on Wednesday 22 November 2017.

At the hearing the Local Authorities were asked by the Examining Authority to seek the views of the Internal Drainage Board (the statutory body to whom the Authorities would defer in respect of drainage matters) in respect of surface water drainage matters from the application site. This action point is noted in the distributed Hearing Action Points.

The Applicant advised the Authorities and the Examining Authority of previous correspondence it had had with the IDB to date. The Applicant has subsequently shared that previous correspondence with the Authorities.

The correspondence received by the Authorities is made up of email correspondence from JBA Consulting including a summary of the modelling, assumptions made and model results. This was sent to the Applicant on 5 May.

In response to the information, Kirsty Cobb at Aecom has asked for confirmation of agreement in principle to the proposed surface water discharge to Hensall Dyke subject to a consent application being submitted in due course.

On 12 May 2017, Paul Jones of Dunvm Drainage Commissioners of the Shires Group of IDBs gave that confirmation.

The Authorities wrote to the Dunvm Drainage Commissioners of the Shires Group of IDBs on Friday 24 November 2017.

To date the Authorities have not received a timetable for responding from the Internal Drainage Board.

We will keep the Examining Authority updated of progress on the matter.

Yours faithfully

Michael Reynolds
Senior Policy Officer (Infrastructure)
